Almost four years have passed since you and your family were interviewed as part of Growing Up in Ireland. At that time we explained that we would like to make a return visit to your home for a follow-up interview to see how your child has changed and grown since our last visit. We are now seeking to interview the parents/guardians of <child>. The whole interview with the parents/guardians and child will take about 1½ - 2 hours to complete [INTERVIEWER: Adjust as appropriate for you in the field]. All the information you and your family provide will be treated in the strictest confidence and will not be released in any way which would allow the information you provide to be identified with you or your family. If however, we are told something which might suggest that a child or other vulnerable person is at risk we may have to act on it.

The Department of Health and Children is funding the study through the Department of Children and Youth Affairs, in association with the Department of Social Protection and the Central Statistics Office. The Department of Education and Science is represented on the Steering Group which oversees the Study. A group of researchers led by the Economic and Social Research Institute (ESRI) and The Children's Research Centre at Trinity College Dublin is carrying out the study.
